Postman Tests Basic Training

Hello everyone, I am Jeffery Osei, a senior backend engineer at [Expresspay Ghana Limited](), in this training I will be introducing to you a tool I use in my daily work activities, after this training you would have a bit of knowledge to get started with your api testing in an integrated environment.

Kindly find below links to resources you can use as a guide and also links to my social media should you need to make contact for any challenges you might have or just have a short conversation if you are also starting out.
